EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenneth Glass on 12/16/05.

The application has been amended as follows:

Claim 9, at line 9 of page 25, after "process" insert --, portions of said layer of titanium nitride extending within said opening so as to partially fill said opening --.

2. The following is an examiner's statement of reasons for allowance:

Prior art of record does not teach or suggest the claimed method for forming a thin film resistor as recited, which includes the claimed features of: forming an opening in the first dielectric layer so as to expose a portion of the gate structure; depositing a titanium nitride layer using a CVD process, portions of said titanium nitride layer extending within said opening so as to partially fill said opening; and performing a rapid thermal annealing in an oxygen environment so as to form a titanium oxynitride film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
